

Using Your WWA Client Portal

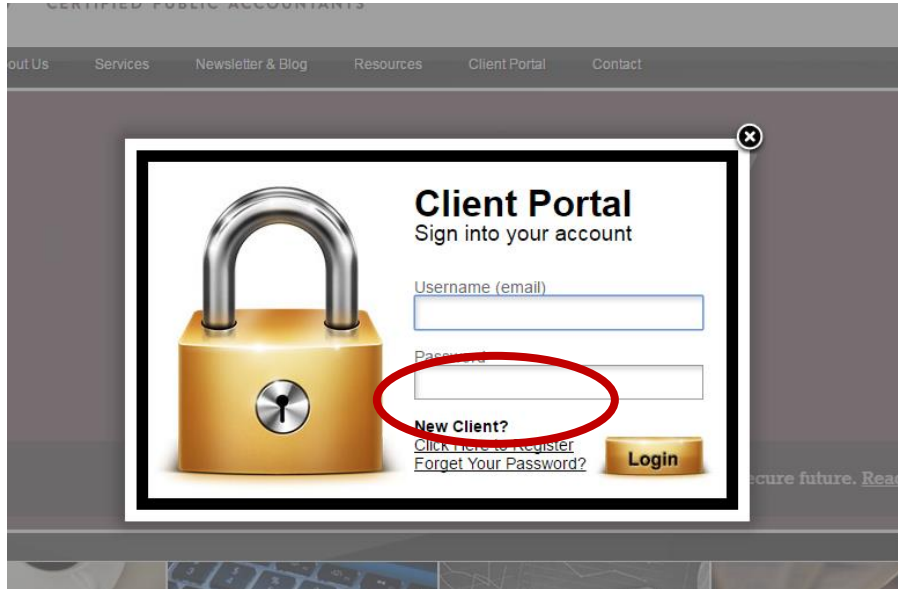

Our client portal is a helpful resource which allows the secure online exchange of confidential tax documents. Since it is a relatively new resource, we have provided these informational pages to guide you through the registration and upload process.

1. Registering for your Account

Visit our website at www.wwcpafirm.com and click on the client login button, as shown below.

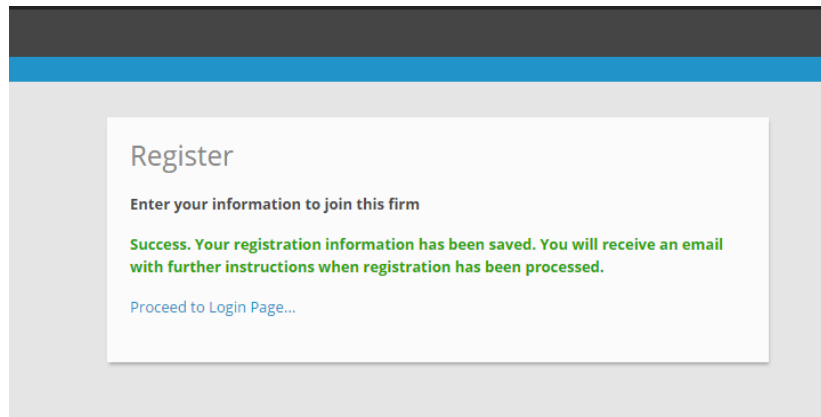

If you are registering for the first time, click on the link pictured below.

You will be directed to a form that looks like this; fill in all of the indicated information, type the letters and numbers that you see in the speckled box into the “input symbols” space, and click “Register” when finished.

A screenshot of a 'Register' form. The title is 'Register' and the subtitle is 'Enter your information to join this firm'. The form contains several input fields: 'First Name', 'Last Name', 'Company Name', 'Email Address', 'Confirm Email Address', 'Password', and 'Confirm password'. Below these fields is a CAPTCHA image showing the letters 'ZVITL' in a blue, speckled font. Underneath the CAPTCHA is a 'Refresh' link and an 'Input symbols' field. At the bottom of the form are two buttons: 'Register' (in blue) and 'Cancel' (in grey).

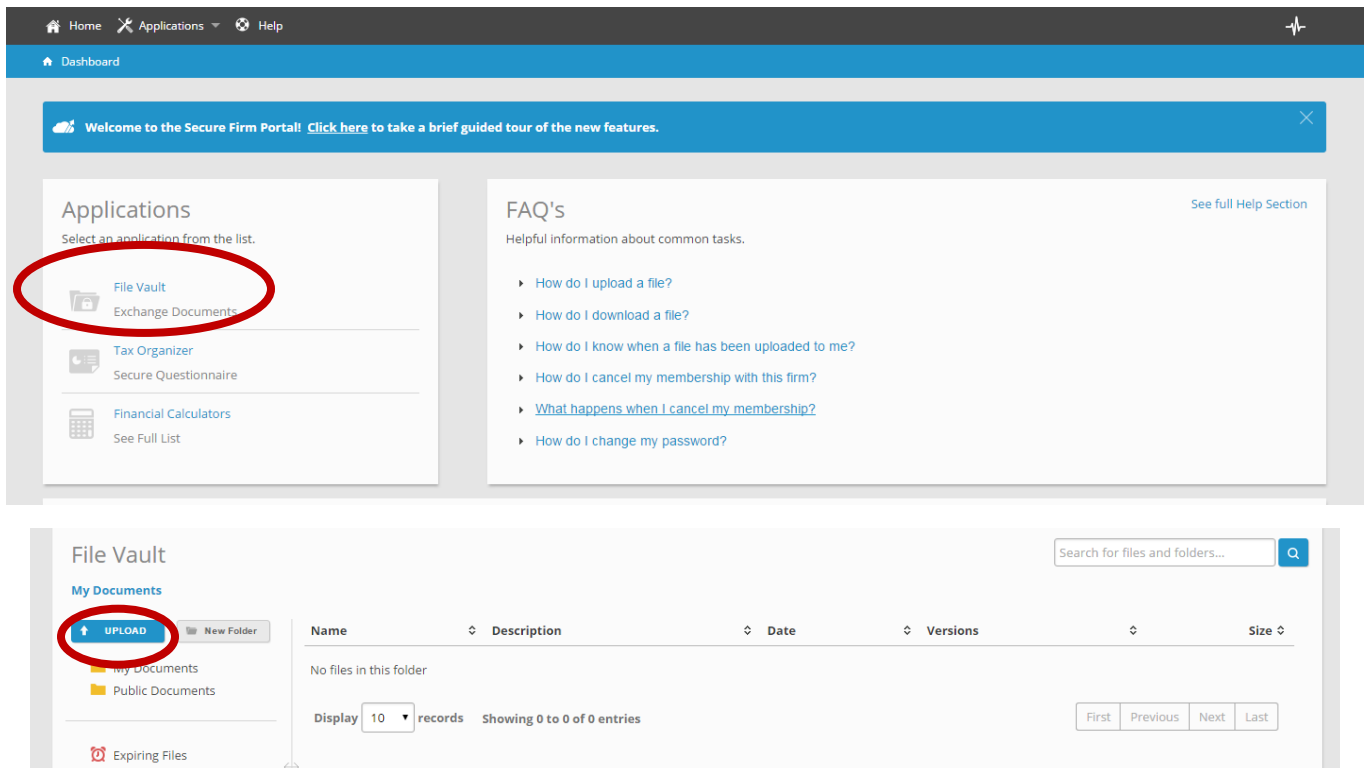

After you have clicked “Register” the following text will appear.

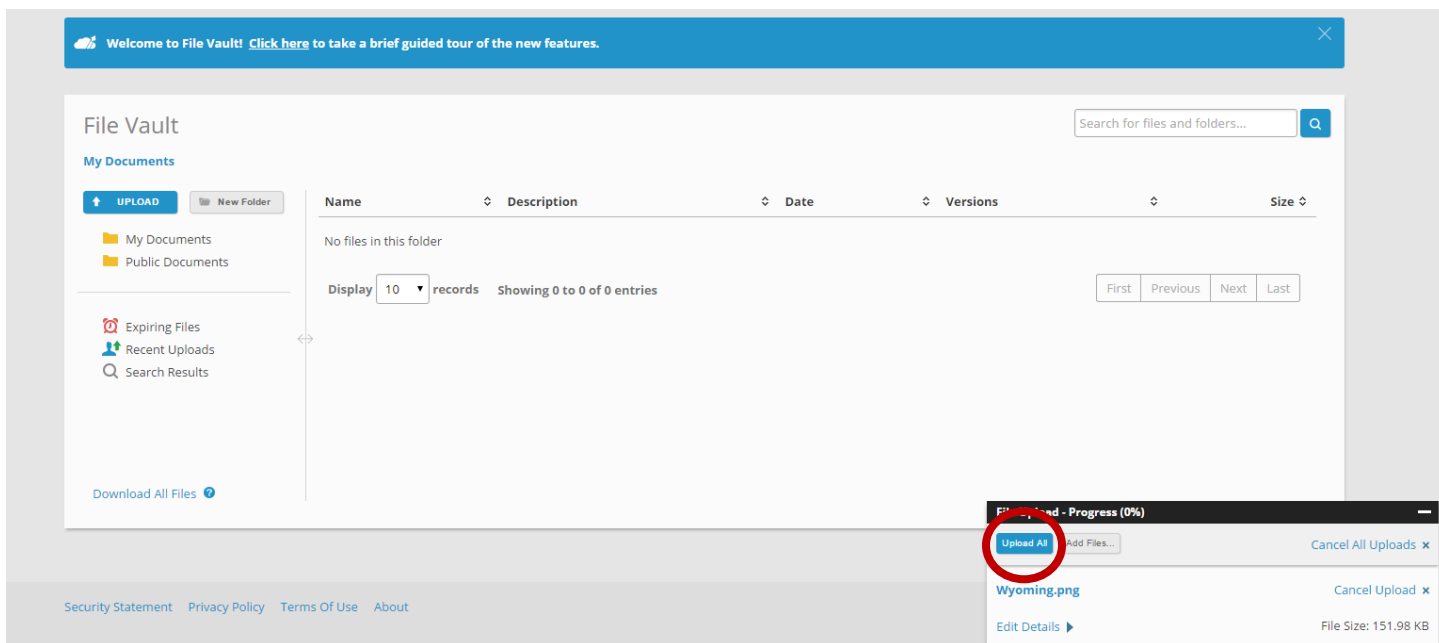

At this point, we will have received an email requesting us to authorize your portal registration. We will authorize your account within 48 business hours. Return to www.wwcpanfirm.com and periodically try to log in to your client portal.

2. Uploading Files

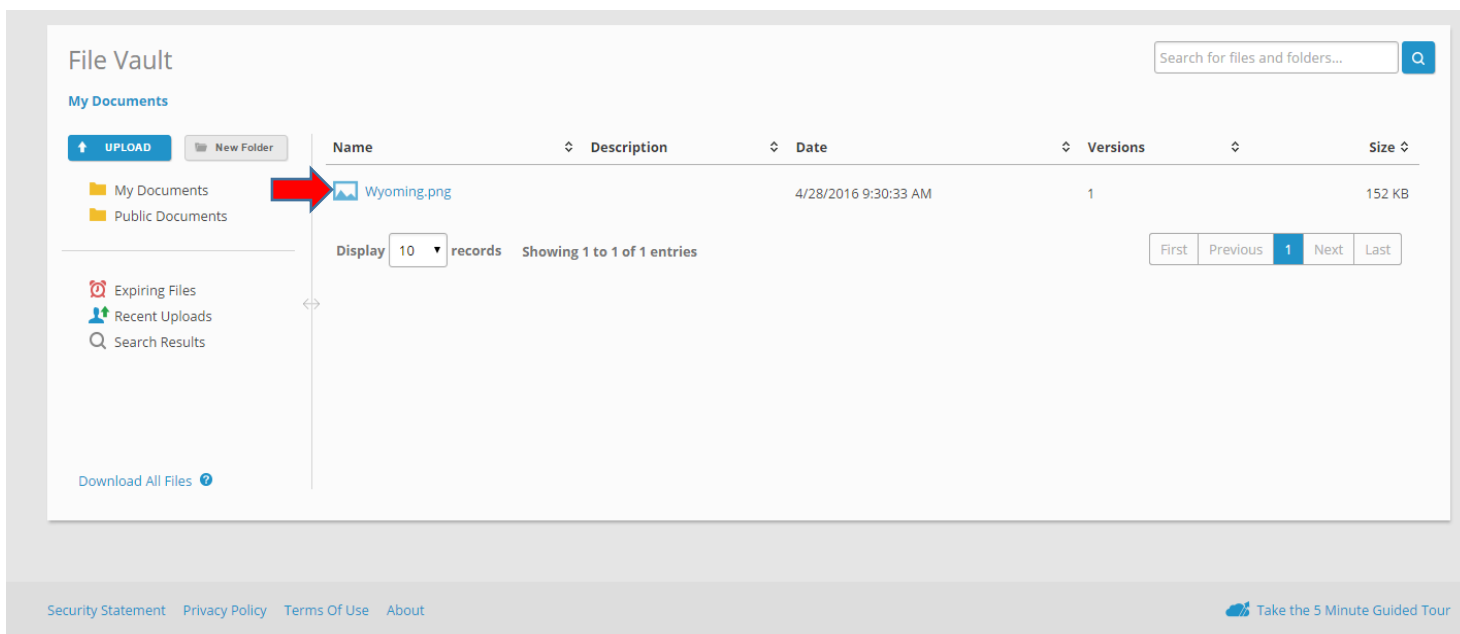

After logging in, you will see the following screen. To upload documents, choose “file vault” and then “upload” as shown below.

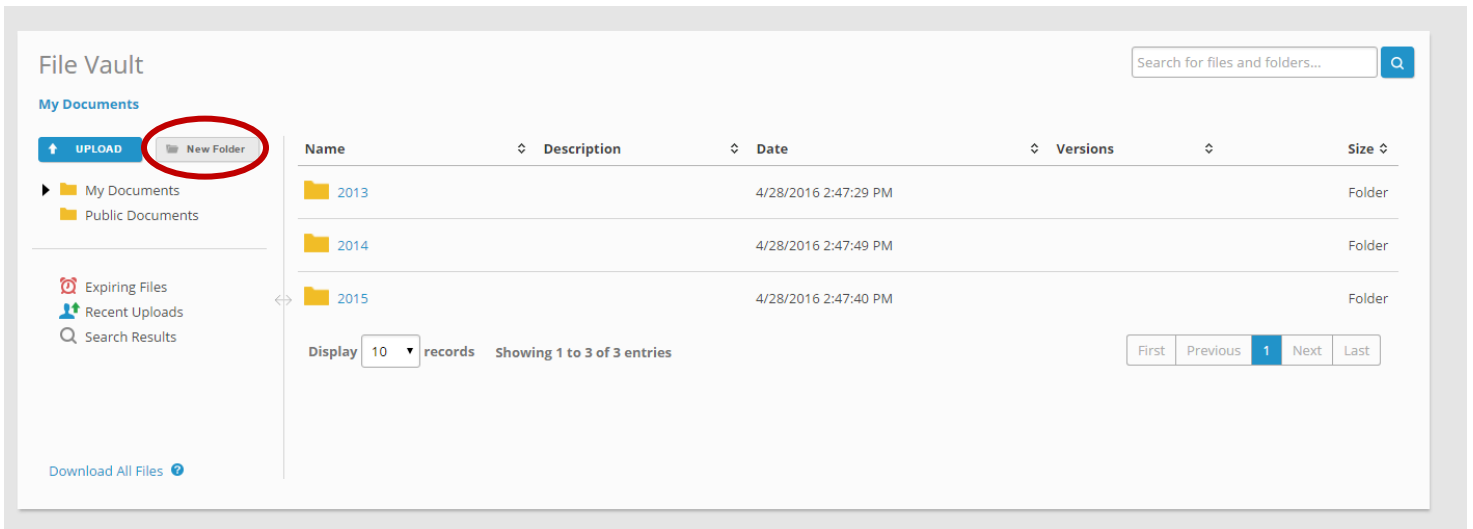

Your computer will open a browser window from which you should choose which files you would like to upload from your computer onto your client portal. Once you have chosen the files you want to upload, make sure to click “Upload All.”

Once you have uploaded your files, they should appear in your vault, as shown here:

In order to further organize your portal, you can create folders in which to put your files.

3. Receiving Files

If you have requested that we deliver a file to you via your portal, we will upload the file to your file vault; to download it, simply click on the file and it will download to your computer. Please note that we must delete files once per year in order to create space for additional documents. We ask that you use the portal as a means of transferring documents, not storing them.
